

BAYER WOOD PRODUCTS

Hey- what happened to summer?
Here it is August already. Hasn't
been a bad summer as far as
business goes, but don't ask where I
went on vacation. I think you call it
home.

We've added some of our 3/4" thick
cutouts to the clearance list. Prices
are dropped and we will be adding
more as we have time. Due to the
loss of our main manufacturer of
cutouts, we are being forced to drop
a lot of our items. [to view click here](#)

We are starting to run out of drilled
birdtoy parts. If you need some,
don't wait too long. We can't always
get these and don't know when we
will have more. [to view click here](#)

We have plenty of undrilled birdtoy
parts. If interested in a large
quantity, 500 pounds or more, call
and ask for Mike. [to view click here](#)

All of our beads are American made
and painted here also. No reason to
worry about lead based paint. [to view click here](#)

We have an overstock on certain
basswood parts and are looking for
offers on these pieces. Large pears,
spools and bell bases. Call and ask
for Mike if interested. [to view click here](#)
